

School Tour

School has organized a number of educational tours from the last 5 years successfully. Educational tour is a wide source of learning for the students. School has been organizing this tour in every session. These tours help the students to understand the different geographical conditions and climate. They also come to know about historical places. Thus D.P. Vidyapeeth has provided a great opportunity for the students to know India's ancient culture and its flora and fauna. In book we read only of Idea's and experiences of other man. The knowledge thus acquired is theoretical. In day-to-day life we cannot be successful with mere theoretical knowledge. We must also know about the habits, manners and ways of living of other persons. We can learn about others by coming in contact with them. Travelling and educational tours takes us from the field of bookish knowledge to the field of practical knowledge, from the realm of imagination we come down to reality. The advantage of tourism is many. Thus these educational tours have helped us in developing our students from all aspects.
